Unit VII Research Report

The Influence of Civil and Criminal Laws and the Criminal Justice System

Description or Explanation: This research report will cover your in-depth knowledge of property rights as they relate to search and seizure, and the protection of arrest and the right to counsel. When thinking about your report, it is important to consider a civil law case and a criminal law case which have influenced outcomes in the Criminal Justice System. You will find cases and/or laws that cover both civil law and criminal justice law as it relates to the following:

- Property rights to rules of search and seizure
- Protection of arrest and the right to counsel.

Research one civil law case and one criminal law case. When examining the civil law case and criminal law case, think about the objectives below to help guide you in formulating your research report.

- Historical makeup: Give an overview of the civil law case and criminal law case which helped to shape the criminal justice system.
- Describe the distinct differences between the civil law and criminal law.
- Discuss the reasoning behind these cases and laws.
- Discuss the influence and outcome of these laws on the American criminal justice system.
- Summarize the impact of these two cases as it relates to shaping our criminal justice system.

Requirements: The research report must be a minimum of five pages in length, not including the title page and reference page. Refer to the CSU Online library or outside sources. A minimum of three sources must be used. All sources used including the textbook must be referenced; paraphrased and quoted material must have accompanying citations. All references and citations must be in APA style. Wikipedia is not a credible resource and should never be used.

APA Guidelines

The application of the APA writing style shall be practical, functional, and appropriate to each academic level, with the primary purpose being the documentation (citation) of sources. CSU requires that students use APA style for certain papers and projects. Students should always carefully read and follow assignment directions and review the associated grading rubric when available. Students can find CSU’s Citation Guide by clicking here. This document includes examples and sample papers and provides information on how to contact the CSU Success Center.
Grading Rubrics

This course utilizes analytic grading rubrics as tools for your professor in assigning grades for all learning activities. Each rubric serves as a guide that communicates the expectations of the learning activity and describes the criteria for each level of achievement. In addition, a rubric is a reference tool that lists evaluation criteria and can help you organize your efforts to meet the requirements of that learning activity. It is imperative for you to familiarize yourself with these rubrics because these are the primary tools your professor uses for assessing learning activities.

Rubric categories include: (1) Assessment (Written Response) and (2) Assignment. However, it is possible that not all of the listed rubric types will be used in a single course (e.g., some courses may not have Assessments).

The Assessment (Written Response) rubric can be found embedded in a link within the directions for each Unit Assessment. However, these rubrics will only be used when written-response questions appear within the Assessment.

Each Assignment type (e.g., article critique, case study, research paper) will have its own rubric. The Assignment rubrics are built into Blackboard, allowing students to review them prior to beginning the Assignment and again once the Assignment has been scored. This rubric can be accessed via the Assignment link located within the unit where it is to be submitted. Students may also access the rubric through the course menu by selecting “Tools” and then “My Grades.”

Again, it is vitally important for you to become familiar with these rubrics because their application to your Assessments and Assignments is the method by which your instructor assigns all grades.

Communication Forums

These are non-graded discussion forums that allow you to communicate with your professor and other students. Participation in these discussion forums is encouraged, but not required. You can access these forums with the buttons in the Course Menu. Instructions for subscribing/unsubscribing to these forums are provided below.

Once you have completed Unit VIII, you MUST unsubscribe from the forum; otherwise, you will continue to receive e-mail updates from the forum. You will not be able to unsubscribe after your course end date.

Click here for instructions on how to subscribe/unsubscribe and post to the Communication Forums.

Ask the Professor

This communication forum provides you with an opportunity to ask your professor general or course content questions. Questions may focus on Blackboard locations of online course components, textbook or course content elaboration, additional guidance on assessment requirements, or general advice from other students.

Questions that are specific in nature, such as inquiries regarding assessment/assignment grades or personal accommodation requests, are NOT to be posted on this forum. If you have questions, comments, or concerns of a non-public nature, please feel free to email your professor. Responses to your post will be addressed or emailed by the professor within 48 hours.

Before posting, please ensure that you have read all relevant course documentation, including the syllabus, assessment/assignment instructions, faculty feedback, and other important information.

Student Break Room

This communication forum allows for casual conversation with your classmates. Communication on this forum should always maintain a standard of appropriateness and respect for your fellow classmates. This forum should NOT be used to share assessment answers.
