Greetings!

My name is Courtney Blake and I will be your instructor for this course. I hope you will thrive as a learner in this course just as I do by instructing the course. I have found that I often learn many things from the diverse group of individuals I interact with in each course.

By day, you will find me teaching high school literature. I have been a teacher for over a decade, and I can't imagine doing anything else! Be it in the traditional classroom or in an online setting such as ours, I thoroughly enjoy the opportunity to engage learners.

While CSU is miles away for many of you, I am fortunate enough to reside on the beautiful Gulf Coast with my family. We enjoy spending time on the water and are actively involved at the high school where we teach and coach.
