Blackboard My Courses Page

Superior Service.
Flexible Programs.
Extraordinary Value.
OBJECTIVES

After viewing this presentation, you will be able to:

• Navigate your *My Courses* page in Blackboard.
• Access the resources in the *Tools* area.
• Access your courses.
Blackboard My Courses Page

The first screen you will see after successfully logging into Blackboard is the My Courses page.

You will notice different areas of the page containing:

- **Tools**
- **My Announcements**
- **My Calendar**
- **My Courses**
- **Report Card**
The **Tools** area contains valuable features that you will use.

The **Announcements** area displays any important information regarding your course posted by your instructor. Sometimes system announcements are also posted, relaying information about scheduled maintenance or holiday breaks.

Clicking the *More Announcements* button at the bottom of that area will take you to the Announcements page where you can see all posted system and course announcements.
The **My Courses** area contains the courses in which you are currently enrolled. To access a course, just click the course name link.

The **My Calendar** area is your personal calendar. You can access a month, week, or day by clicking the *More Calendar Events* button at the bottom of the area. You can also create your own events related to your course.
Anytime you leave the *My Courses* page to enter your course, you can always return to it by clicking the *My Courses* tab at the top of the screen. It is always present no matter where you go in Blackboard.
This concludes
